

Digital Safety Newsletter Christmas 2017

Welcome to our Christmas digital safety newsletter. The Lancashire Safeguarding Board have produced a Christmas newsletter with some excellent ideas about digital safety this Christmas which Gisburn Road would like to share with you. As many children receive gifts they can use to go online, this time of year is a good opportunity to give some thought to how we can support them to stay safe whilst having fun.

Gifts such as **Tablets, Gaming Consoles or Smartphones** can all be used to go online so it is important to think ahead about what safety features are available and set them up in advance.

Colleagues at the UK Safer Internet Centre have some very useful checklists with things to consider when choosing different devices: **Tablets** - http://bit.ly/uksic_tablets

Gaming Consoles - http://bit.ly/uksic_gaming **Smartphones** - http://bit.ly/uksic_phones

Tip: The Safer Internet Centre also has some excellent advice in their **Parents' Guide to Technology** and includes device-specific settings for different models:

www.saferinternet.org.uk/advice-centre/parents-and-carers/parents-guide-technology

Setting up **Parental Controls** on the home internet connection may seem a little daunting but the highly-regarded **Internet Matters** website has some really useful guidance from major broadband providers about setting up online filters.

Tip: Use the Interactive guide on the website at: www.internetmatters.org/parental-controls/interactive-guide

Agreeing some **Behaviours and Expectations** before children receive devices can help to prevent some difficult conversations later. Additionally, our colleagues at Childnet have a handy **Family Agreement** which can be useful, especially for younger children – see:

www.childnet.com/blog/family-agreement

Tip: Good agreements work both ways so if family-time involves no tech, this applies to adults too!

Not sure about *Snaps, Streaks or Insta*? The variety of **Apps and Social Media** tools can seem bewildering at first but the very-highly recommended NetAware resource from O2 and the NSPCC is an excellent way to find out more about the different apps and games your child may use – see: www.net-aware.org.uk

Tip: NetAware also has an app for your smartphone to stay in touch with the latest updates.

Games can be over-looked but remember most modern consoles connect online and often have in-built web browsers. Ensuring **appropriate gaming content** is also important so make sure to check what PEGI-rating different games have, including the descriptions such as Sex, Violence or Bad Language – see: www.pegi.info

Tip: Some games also offer in-game purchases for additional content – if so, **use vouchers** rather than credit cards to help save you from unexpected bills later.

Don't forget the Positives! Being aware of the potential risks the online world poses is very important but don't forget it also offers us immense opportunities and benefits. Have a great Christmas -

Mr. Browne and the staff of Gisburn Road C.P. School
