## Waves of Teaching

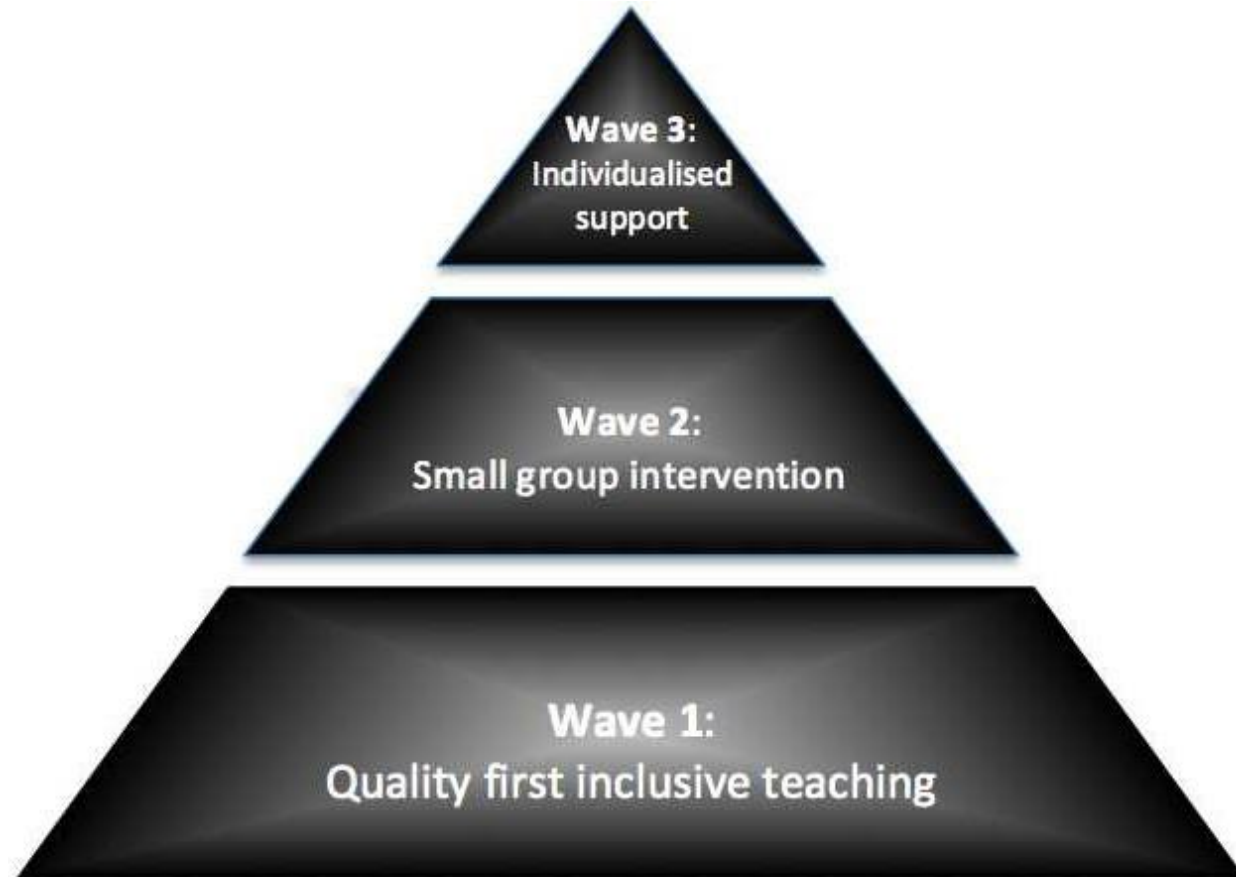

Our provision map is arranged in three 'waves' of teaching as outlined in the diagram.

The SEND Code of Practice (2015) states that: *"high quality teaching that is differentiated and personalised will meet the individual needs of the majority of children and young people"*. This is the Quality First Teaching labelled as Wave 1.

Schools are required to *"adopt a graduated approach with four stages of action: assess, plan, do and review"*. If at the assessment stage schools determine that a child is not making expected progress they should plan additional provision to help close the gap between the child's attainment and that of their peers. This may take the form of a small group intervention i.e. Wave 2.

If, when reviewed, it is found that the additional provision has not succeeded in sufficiently accelerating the child's progress then the provision should be altered. After one or more cycles of review it may be found that the child requires more individualised support at Wave 3.

Many children receiving Wave 3 provision will be classified as having a Special Educational Need (SEN). Further details regarding legal definition of SEN and our school's process for the identification and support of those with SEN can be found in the school's SEN Information Report.

## Wave I

Wave I is good quality, inclusive teaching which takes into account the learning needs of all the children in the classroom. This includes providing differentiated work and creating an inclusive learning environment. Here are some examples of our Wave I provision which will be adapted according to the needs of the children.

## **Wave 2**

Wave 2 is specific, additional and time-limited intervention provided for some children who need help to accelerate their progress to enable them to work at or above age-related expectations. Wave 2 interventions are often targeted at a group of children with similar needs. In some cases we may take advice from outside agencies to enable us to target the support for children at Wave 2.
