29th June 2026

Dear Parents and Carers,

I am writing to let you know that we will soon be carrying out some important, long-awaited roof repair work on our **Junior building**. To enable these repairs to take place, scaffolding will need to be erected around parts of the Junior building during the summer holidays.

We appreciate that coming back to school in September and seeing scaffolding on site may raise questions, so I would like to reassure you that the safety of our children, staff and visitors is, as always, our highest priority. A range of measures will be put in place to ensure that everyone can continue to move safely around the school. This will include protected covered walkways, clearly marked routes and secure working areas for the contractors.

The contractors will be working closely with the school to minimise disruption as much as possible, and we expect school life to continue as normal throughout the project.

Please take the opportunity to remind your child that the scaffolding and work areas are strictly out of bounds and that they should continue to follow staff instructions when moving around the site.

Whilst the work may cause some short-term inconvenience, we are very much looking forward to the long-term benefits—particularly having a warm, dry building when the rain arrives!

Thank you for your continued support and understanding while these essential improvements are carried out. We are looking forward to completing these works and ensuring that our school buildings remain safe and well maintained for all our children.

If you have any questions, please do not hesitate to contact the school office.

With best wishes,

Mrs Laura Toor

Acting Headteacher
