MHST? Who are we?

The Mental Health Support Team (MHST) provides an accessible service for students from primary age to year 13 who may be experiencing a range of mild to moderate difficulties with their mental health. The teams are based within education settings and cover Year 1 to Year 11 in Blackburn with Darwen and Burnley, Burnley College, Year 1 to Year 6 in Pendle and Year 7-13 in Hyndburn, Rossendale and Ribbles Valley (including Nelson and Colne and Accrington College).

If you have noticed your child is feeling frequently sad, worried or anxious and feel they may need support from our team, please speak to a member of staff at your child's school, who can support a referral to the service. You can also speak to your GP.

Our aim is to work alongside children, young people, families, schools and other professionals to provide early, accessible support and help young people develop skills to manage their mental health and wellbeing.

Team Update

UPDATE

It's been a busy summer for practitioners across the Mental Health Support Team!

Over the summer period, the team have continued to provide support to young people and families, whilst also taking some time to prepare for the year ahead.

We have been:

- Developing new resources to support our work with young people, families and schools.
- Continuing to offer therapy sessions and providing ongoing support to young people.
- Meeting with young people and families to understand their needs and work together towards positive change.
- Liaising with professionals across schools and wider services to ensure joined-up support for the young people we work with.
- Planning and preparing for the new academic year and thinking about how we can continue to develop our service.
- Taking some well-earned annual leave and making the most of the summer break!

As we head towards the new academic year, we're looking forward to welcoming everyone back, continuing our work with young people and families, and putting some of our new ideas and resources into practice.

Here's to another busy and exciting year for the Mental Health Support Team!

Young Persons Voice

Over the summer, we had a really fun participation celebration with the MHST Young People's Participation Group. It was a great chance to get together, have some fun and look back at everything we've achieved over the past year. We talked about ideas for a new name for our group and came up with lots of different suggestions. Keep an eye on the MHST Instagram because you'll soon be able to vote for your favourite name and help us choose our new group identity! We also talked about how the MHST could improve its service and shared our ideas about what we think would make things better for young people. It was good to know that our opinions are listened to and that we can help make a difference. We spent some time looking back at everything we've been involved in over the past year and celebrating the things we've achieved together. It was really nice to see how much we've done and how much young people's voices have helped shape the MHST. Most importantly, we had a chance to have fun, celebrate and spend time together before the summer break.

We're always looking for new members to join us! If you'd like to come along to our next meeting, keep an eye out for posters on our social media pages, or email lisa.naylor@lscft.nhs.uk to receive an invitation. We'd love to hear your ideas and have you join us!

World Suicide Prevention Day

10th September 2026

World Suicide Prevention Day – 10 September 2026

World Suicide Prevention Day is a chance to remind young people that their feelings matter, they matter, and they don't have to face difficult times alone. Sometimes life can feel overwhelming, and it can be hard to know how to talk about what's going on. This day encourages us to break the silence around suicide, look out for our friends and create spaces where young people feel safe to talk without fear of judgement. This World Suicide Prevention Day, take action: check in with a friend, start a conversation, listen without judgement and speak to a trusted person if you're worried about yourself or someone else. If you're struggling, don't keep it to yourself—reach out for support. One conversation could make a difference.

Hello Yellow 2026 🧡

This October marks 10 years of Hello Yellow, YoungMinds' annual campaign to raise awareness of children and young people's mental health.

Taking place around World Mental Health Day on 10 October, Hello Yellow encourages schools, communities and organisations to wear yellow, start conversations and show young people they are not alone.

Get involved: Wear yellow, start a conversation about mental health and help us spread the message that young people are not alone. 🧡

YOUNGMINDS

Hello Yellow

10 wellbeing tips

The world can feel a lot sometimes, so it's important to prioritise looking after your wellbeing. Here are 10 tips we'd recommend trying:

Spend time with your community – whether that is family, friends, chosen family or neighbours, dedicate time to enjoy with your community. If you're looking for a new community, you can find local groups online or in your local community hubs such as sports centres, community centres, religious spaces or schools.

Do things you enjoy – set time aside that's just for you. It's good for you to spend doing your hobbies, being creative, relaxing and having fun!

Be kind to yourself – try not to put pressure on yourself to always feel positive or productive, sometimes we just need to celebrate the small wins and get through the day.

Stay informed mindfully – the news can feel overwhelming at times, so limit or turn off notifications for news apps, or try following positive news sites online or on social media to see the positive things in the world.

Create an ergonomic workspace if you work from a computer or laptop, create a set up that'll look after your body and mind to prevent physical strain, and clutter-free to help you avoid distractions.

Go phone-free – set time where you won't use your phone to help break up your screen time. Try using your phone's Focus Mode to avoid notification distractions. Or if this feels undoable, you could try a social media detox. There are app restriction settings on your phone that can help you do this.

Share how you're feeling – speak with someone you trust about how you're feeling. It can help to share your feelings aloud, whether it's for a listening ear or some advice.

Get enough sleep – take time to wind down before you go to sleep and if you can, avoid using your phone or any screens an hour before bed. It can also help to have regular sleep and wake up times. We know life happens and it's not always this simple, but getting enough sleep is always good for your mental wellbeing.

Curate your online space – unfollow accounts that don't bring you joy and follow more that do. Some social media platforms also allow you to limit posts with certain phrases or words to help make your online space feel safer.

Embrace nature – Whether it's a walk in the park, sitting on your balcony or spending time in the garden, fresh air will always be a good idea.

For 2026, the theme set by the World Federation for Mental Health is in **Lived experiences heard: Real voices, real change.**

Mind Lancashire

Supporting a bereaved child can feel overwhelming.

When a child loses someone important, parents and carers are often trying to support them while managing their own grief too.

You don't have to navigate grief alone.

The Wave Project offers dedicated assistance for parents and carers across Blackburn with Darwen.

- Better understand how grief can affect children and young people
- Feel more confident supporting your child
- Share experiences with other parents and carers
- Learn practical ways to help your family
- Access guidance in a safe and understanding environment.

Supporting the whole family helps build stronger networks around young people.

Improving outcomes for all affected by bereavement.
