

How to opt out of school health screening

Opt your child out of NCMP, the health questionnaire, or both, using one online form in the SchoolScreener Parent Portal.

Taking part is **voluntary**. Opting out does not close your account: the School Nursing Team can still send letters and messages to your **Parent Portal Inbox**.

Common questions

I'm happy for my child to take part. Do I need to do anything?

No opt-out is needed. You can still submit the form with no boxes ticked, which helps the team link your child's results to your account.

When should I opt out?

Before your child's screening takes place. Registering early gives the team time to record your choice.

I have two children in Reception or Year 6.

Submit one form per child. After the first, click **Fill in for another child** on the Forms page.

I changed my mind after submitting.
