

## Take Time to Dream

Take time to dream your dreams  
Take time to be inspired  
Take the time to find your wildest dream  
And your heart's desire

Take time to dream your dreams  
No matter where you are  
From just one tiny grain of sand  
Until the farthest star

Lose yourself in clouds and sky  
Follow each and every breeze  
The whispered secrets of the wind  
The oceans and the seas

Gaze through every window pane  
Look through every open door  
Search horizons near and far  
Find what you are look for

Take time to dream your dreams  
Take time to believe  
Take the time to dream them real  
If you give, you will receive

Take time to dream your dreams  
Creation be your friend  
Let inspiration be your guide  
From beginning, from beginning  
From beginning to the end  
From beginning to the end.
