School vision and values

In partnership with staff and the Senior Leadership Team, the Governors have recently reviewed and refreshed the mission statement and vision and values for Gisburn Road School. I am pleased to be able to share these with you, and we believe that these reflect what is most important for our school: providing the best opportunities for children's learning in partnership with families and the wider community.

Our new school mission statement and vision:

'Where family and learning unite'

At the heart of our school is our community. Our warm family ethos drives our vision and values which are at the core of all we do.

Our new school values:

kindness, honesty, respect, perseverance, appreciation

These are values to be lived not just put up on a wall, and staff will be sharing and demonstrating these with children through assemblies, conduct and talking about them in class.

Mrs Toor will be sending out the new Relationships and behaviour policy soon where you can find the aims of our school vision.

If you have any questions about our new vision and values, please arrange an appointment with Mrs Toor.

Many thanks,

Rachel Waddington
Chair of Governors

Where family and learning unite

respect • appreciation • honesty • kindness • perseverance
