10th March 2026

Year 2's Parent's in Class Afternoon.

Dear Parents and Carers,

As part of our Design and Technology (DT) project this half term, the Year 2 children will be learning about vehicles. We will plan and design their own vehicles, and would love your help bringing these ideas to life!

We would like to invite you to come into school on **Wednesday 25th March at 2:15pm** to help your child build their vehicle. It will be a fun and creative session where the children can work together with you to make the designs they have carefully planned.

To help with this, we would really appreciate if children could bring in some recycled materials that could be used in their vehicle. Useful items might include:

- Kitchen roll tubes
- Small cardboard boxes
- Bottle tops
- Cartons
- Other clean recyclable materials that could be used for building

If you are able to join us, you are very welcome to take your child home at the end of the session, so you do not need to wait until the usual home time of 3:20pm.

Thank you very much for your continued support. We look forward to seeing you and having an exciting afternoon of designing and building together!

Kind regards,
Year 2 Team

Mrs Brown and Miss Beth

Where family and learning unite
